

CityBlocks Investors

Investor One-Sheet

Domain History

CityBlocks.com has been owned since 1997, predating Google's own domain registration. This establishes long-term credibility and premium value.

Brand Potential

CityBlocks is a versatile brand identity, suitable for real estate, gaming, metaverse, city planning, architecture, or blockchain projects.

Market Comparisons

Premium domains like Hotels.com and Business.com sold for millions, underscoring the potential market value of CityBlocks.com.

Investor Value

The domain is currently valued by GoDaddy's Afternic AI between \$8,000–\$12,000, with upside potential as brand adoption grows.

Primary Focus

CityBlocks.com is being actively developed into an interactive brand concept, maximizing long-term asset appreciation.
